

Brian Nyairo Nyasente

+254745581692 | nyasentebrian@gmail.com | github.com/brianz-man

Professional Summary

Motivated and detail-oriented Software Engineering undergraduate with hands-on experience in full-stack web development and machine learning applications. Skilled in building scalable web applications and developing intelligent systems using modern frameworks and tools. Strong problem-solving abilities, adaptability, and a passion for continuous learning and innovation.

Education

Murang'a University of Technology	2022 – 2026
Bachelor's Degree in Software Engineering (Undergraduate)	
Nyakongo Boys High School	2018 – 2021
Kenya Certificate of Secondary Education (KCSE) – Grade: B+	

Technical Skills

- **Languages:** HTML, CSS, JavaScript, Python, TypeScript
- **Frameworks & Libraries:** React, Node.js, Express.js, Django, Tailwind CSS
- **Tools & Technologies:** Git, GitHub, REST APIs
- **Other Skills:** Full-stack Development, Networking Fundamentals

Projects

Automated Potato Blight Detection System (CNN Model)

Developed a machine learning model using Convolutional Neural Networks to detect potato leaf diseases with high accuracy.

Zaph Tours Web Application

Built a full-stack travel platform with modern UI and backend integration.

Rock Paper Scissors Game

Developed an interactive browser-based game using JavaScript.

Guessing Game Application

Created a dynamic game application focusing on logic and user interaction.

Nationality Checker App

Implemented an API-driven app to predict nationality based on names.

React Advice App

Built a React-based application that fetches and displays random advice using APIs.

Professional Experience

Industrial Training Intern

May 2025 – August 2025

The Jitu (Teach2Give)

- Participated in full-stack development training programs.
- Collaborated in building real-world software solutions.
- Gained hands-on experience in modern development practices and teamwork.

Murang'a County Government, Department Of Agriculture, Trade, Industrialization, And Cooperative Development

Jan 2026 – March 2026

- **System Administration:** Served as the technical lead for the Murang'a Subsidy Management Web Application, ensuring high system availability for the county-wide farmer registration exercise.

- Technical Support: Provided end-user troubleshooting for browser-based errors, connectivity issues, and hardware synchronization during field data collection.
- Data Governance: Managed the digital capture and validation of farmer profiles in the central database, ensuring data accuracy for the distribution of subsidized farm input.
- User Capacity Building: Conducted on-site technical training and support for farmers and field officers, simplifying complex web-app workflows to increase user adoption rates. <https://maize.murang'a.go.ke>

Certifications & Achievements

- Network Support and Security
- Operating Systems Basics
- Machine Learning using Python

Soft Skills

- Problem Solving
- Communication Skills
- Adaptability
- Teamwork and Collaboration
- Time Management
- Critical Thinking

Languages

- English (Proficient)
- Kiswahili
